

SUPPLIER EVALUATION CRITERIA

Rev. 03 – 04/06/2026

Técnicas y Servicios de Ingeniería y Control del Norte SL (hereinafter, TESICNOR) has implemented a Quality, Environmental and Occupational Risk Prevention Management System based on the International Standards UNE-EN ISO 9001:2015, 14001:2026 and 45001:2023 respectively.

The capacity of suppliers is vitally important to meeting the requirements TESICNOR commits to its customers; therefore, one of the Quality System requirements establishes the need to evaluate and select suppliers based on their ability to fulfill the commercial commitments established with TESICNOR.

In order to qualify as TESICNOR Approved Suppliers, your first three orders will be evaluated based on the following criteria:

- ❑ **Price adjustment**
- ❑ **Product/service quality**
- ❑ **Terms of payment**
- ❑ **Customer Service**
- ❑ **Delivery time**
- ❑ **Incidents**
- ❑ **Respect for the Environment**

For Approved Suppliers, they will be evaluated annually based on the same criteria in order to maintain or deregister them as approved suppliers.

If the evaluation result is unfavorable, it will result in an assessment by our Quality Department, which could ultimately result in the loss of TESICNOR's Approved Supplier status.

Santiago Pangua Cerrillo

Manager of Técnicas y Servicios de Ingeniería y Control del Norte SL
